- 19 MAGAZINE BASE PLATES

## PRODUCT LIST

- 21 NEXUM GRIPS
- 22 PERFORMANCE PARTS

# NEXUM GRIPS

UNIQUE KATANA MATERIAL

## A UNIQUE MATERIAL (KATANA)

- adhesion properties close to sandpaper grips
- does not rub the skin like sandpaper grips
- does not damage clothing and equipment
- the thin layer perfectly copies the shape of the surface
- temperature resistance from -30°C up to +70°C (-22°F up to +158°F)
- excellent resistance to water, chemicals and oils
- tested in harsh conditions within STANAG AC225/D14 NATO standards
- available in 4 colours

## Lower stock levels

- universal design for all generations of a given Glock pistol frame size
- split grip compatible with all grip sizes
- EU manufacturing, shorter logistics chain and faster delivery

## Processing quality

- designed by users and tested on real firearms
- maximum surface coverage without overlaps and bulges
- in-house laser cutting solution for maximum precision
